

I urge you not to allow the National Association of Broadcasters to dictate what I am permitted to hear on my XM Satellite radio. I travel across the country often in remote areas and XM Satellite gives me the variety and quality service that I was not able to find elsewhere. I pay a monthly fee to be allowed to listen to a wide variety of music and programs and again strongly urge you to reject the NAB's petition 04-160 because I benefit from listening to the traffic and weather channels on satellite and utilize them much more than I did before satellite radio was available.
